A lot of the harness leading to and from the Crank/Cam sensors is going to be exposed to hot exhaust and vibration. This is a great place to start diagnosing P0016 in your Dodge Neon. It's quick and easy to do this before moving on to the sensors themselves. Make sure to check the harness where it plugs into both sensors as well.

P0325 is a powertrain (OBDII) trouble code that has the same meaning for the Dodge Neon as it would any other vehicle. By definition, it means that the vehicles ECM/PCM isn't getting the proper signal to or from the knock sensor. Clearing this code typically requires a new knock sensor or correcting a short or break in the wiring harness.
