Army Training Requirements and Resource System

For pharmacists looking to become a board-certified pharmacotherapy specialist, it is essential to study statistics in preparation for the exam. In this article two pharmacists who have passed the BCPS exam and have significant research experience provide a BCPS statistics review for pharmacists. Authored By: Timothy P. Gauthier, Pharm.D., BCPS-AQ ID & Tristan T. Timbrook, Pharm.D, MBA, BCPS [...]

A BCPS Statistics Review For Pharmacists

The right to refuse medical intervention is well established, but it remains unclear how best to respect and exercise this right in life support. Contemporary ethical guidelines for critical care give ambiguous advice, largely because they focus on the moral equivalence of withdrawing and ...

Withholding and withdrawing life support in critical care ...

miology/biostatistics, internal medicine, neurology, nursing, radiology, and surgery. The writing committee conducted a comprehensive review and synthesis of the relevant lit-erature. The committee reviewed all compiled reports from computerized searches and conducted additional searches by hand; these are available on request.

Guidelines for the Prevention of Stroke in Patients With ...

Guideline developers use a bewildering variety of systems to rate the quality of the evidence underlying their recommendations. Some are facile, some confused, and others sophisticated but complex In 2004 the Grading of Recommendations Assessment, Development and Evaluation (GRADE) Working Group presented its initial proposal for patient management.1 In this second of a series of five articles ...

What is “quality of evidence” and why is it important to ...

6.1.2. For long-distance travelers at increased risk of VTE (including previous VTE, recent surgery or trauma, active malignancy, pregnancy, estrogen use, advanced age, limited mobility, severe obesity, or known thrombophilic disorder), we suggest use of properly fitted, below-knee GCS providing 15 to 30 mm Hg of pressure at the ankle during travel (Grade 2C).

Prevention of VTE in Nonsurgical Patients - CHEST

Objectives To (1) determine if wearing a cloth face mask significantly affected exercise performance and associated physiological responses, and (2) describe perceptual measures of effort and participants’ experiences while wearing a face mask during a maximal treadmill test. Methods Randomised controlled trial of healthy adults aged 18–29 years.

Effects of wearing a cloth face mask on performance ...

The Doctor of Pharmacy (Pharm.D.) degree is a three-year, accelerated professional degree composed of eight, 15-week trimesters where students will begin in the fall of each year.

BackgroundIn 2013, New York began requiring hospitals to follow protocols for the early identification and treatment of sepsis. However, there is controversy about whether more rapid treatment of s...

Time to Treatment and Mortality during Mandated Emergency ...

IMPORTANCE. Definitions of sepsis and septic shock were last revised in 2001. Considerable advances have since been made into the pathobiology (changes in organ function, morphology, cell biology, biochemistry, immunology, and circulation), management, and epidemiology of sepsis, suggesting the need for reexamination.

The Third International Consensus Definitions for Sepsis ...

Introduction. Each year in the United States, >690 000 adults experience an ischemic stroke. 1 The enormous morbidity of ischemic stroke is the result of interplay between the resulting neurological impairment, the emotional and social consequences of that impairment, and the high risk for recurrence. An additional large number of US adults, estimated at 240 000, will experience a transient ...
