The CSX-P, ISACA's first cybersecurity Auditor certification, was introduced in the summer of 2015. It is one of the few certifications that require the individual to work in a live environment, with real problems, to obtain a certification. Specifically, the exam puts test takers in a live network with a real incident taking place.

**ISACA - Wikipedia**

Renewal Period: 3 years. The Certified Information Security Auditor (CISA) is an advanced certification for individuals who work in the information systems audit, control and security industry. The CISA certification covers topics such as the information systems audit process, IT governance, systems and infrastructure lifecycle
