2. Emphasize Your Skills. If you are a recent computer science graduate (especially one without any professional experience), clearly listing your skills is the most important thing you can do on your resume. You want potential employers to see the specific ways you've put your skills to use in the past, so that they have a good idea of the value you'd bring if hired.

In computer science, garbage collection (GC) is a form of automatic memory management. The garbage collector attempts to reclaim memory which was allocated by the program, but is no longer referenced—also called garbage. Garbage collection was invented by American computer scientist John McCarthy around 1959 to simplify manual memory management in Lisp.
