Business process re-engineering (BPR) is a business management strategy, originally pioneered in the early 1990s, focusing on the analysis and design of workflows and business processes within an organization. BPR aimed to help organizations fundamentally rethink how they do their work in order to improve customer service, cut operational costs, and become world-class competitors.

Business process re-engineering - Wikipedia

A detailed business plan is an essential document for any entrepreneur who wants to start a business. It's needed to attract other investors and convince banks and other lenders to provide financing for the new venture. Even better, it forces the owner to make a realistic evaluation of success.
