Age of Enlightenment - Wikipedia

The Legacy of the Age of Enlightenment. This idea of a mechanistic framework for human society and for the universe itself became the bedrock of modern society, with Francis Bacon (1561-1626), Isaac Newton and John Locke becoming the founding fathers of the Enlightenment, possibly the biggest change in human society of all time, the transition from the ancient into the modern world.

Science and the Enlightenment - A Scientific Revolution

...

Significantly, Robinson takes issue with the concept of “The Age of Reason”. Reason, rationality and the questioning of established tradition were, of course, essential components of what we now call The Enlightenment. But when the Enlighteners spoke about “reason”, they were not only referring to the cold application of mathematical logic.
