Staff of the project¹. This edition of one hundred copies was exhausted within two years from publishing.

Module 8 Chaps1 - Food and Agriculture Organization

Drip irrigation is an ideal solution for irregular or small areas. Inline drip irrigation limits the potential for liability by reducing or eliminating overspray on buildings, walkways, roadways, and other trafficked areas. Main-tenance costs are often lower due to reduced overspray, runoff, erosion, compaction, water staining, and property damage.
