political orders is non-centralized, often constitutionally, between at least two levels so that units at each level have final authority and can be self governing in some issue area.

Federalism (Stanford Encyclopedia of Philosophy)

The division of power between the two levels of government has changed drastically in the last 80 or so years. From 1788 until the mid-late 1930s, America operated under a design of dual federalism. Often referred to as "layer cake" federalism (for the clear and distinct differences between layers of government), dual federalism had strict ...

cantonal, territorial or other sub-unit governments) in a single political system. It can thus be defined as a form of government in which powers are divided between two levels of government of equal status.

Federalism - Wikipedia

Federalism was adopted, as a constitutional principle, in Australia on 1 January 1901 – the date upon which the six self-governing Australian Colonies of New South Wales, Queensland, South Australia, Tasmania, Victoria, and Western Australia federated, formally constituting the Commonwealth of Australia. It remains a federation of those six "original States" under the Constitution of Australia.

democracy. This has two faces: the use of areal divisions to ensure neutrality and equality in the representation of the various groups and interests in the polity and the use of such divisions to secure local autonomy and representation for diverse groups within the same ...

federalism | Definition, History, Characteristics, & Facts

...

Federalism is a system of government with one strong, central governing authority as well as smaller units, such as states. If the central government grows too strong, then federalism comes closer to a unitary state, where the governing body has supreme authority and dictates how much power the units are allowed to have.
