The FDA has issued guidelines for sodium in food that seek to reduce the average level in the American diet by 12%. The recommendation seeks to limit sodium consumption to 3,000mg per day, down from the current average of about 3,400. Current dietary guidelines say adults should consume a limit of about 2,300mg.

FDA Issues Sodium-Reduction Guidelines

OTTAWA, ON, Nov. 17, 2021 /CNW/ - There is a common misconception that a glass of wine represents a standard drink of alcohol. The reality is that the alcohol content in wine can vary from less than 10% to over 20% alcohol by volume (ABV) and the pour size can vary significantly from 3oz to 9oz, or more.
