2006 Hyundai Elantra Engine - AutoZone.com

I am getting a check engine code of P2626 on my 2006 Elantra. I believe that I got the same code some years back and the mechanic told me to use premium gas for a while and the code never came back. Don't know how bogus that was (since the code says it is related to the O2 sensor, not the fuel system) but hey, it seemed to work either way. My light has just come on again after several years ...
