Nissan Check Engine Soon Light

The service engine soon light is often mistaken for the check engine light. The check engine light is a light to warn you to a possible issue with your exhaust system or emissions system. The service engine soon light can come on for minor issues like a loose gas cap, or for more major problems such as possible engine failure. Your Service Engine Soon Light Should Not Cause You to Panic. The light does say service engine soon, but you may not necessarily have to make any major repairs soon.

What Does the Service Engine Soon Light Mean on a Nissan ...

Nissan actually has a procedure to access the fault codes and to erase them and reset the computer. The majority of late model cars have a check engine light for the computer and a service engine soon light for required maintenance like oil changes. Nissan only uses one light --- the service engine soon light --- to take care of these functions.

How to Reset the ECU (Service Engine Soon Light) on a ...

Loose or broken fuel cap - if your check engine light is lit, check the cap to your gas tank before you do anything else. If it's loose, it can mess with the pressure in your fuel system enough to set off the warning. This is the best-case scenario, since replacing a broken gas cap is quick, cheap, and easy.

Why Is My Nissan Check Engine Light On?

Your Nissan vehicle comes equipped with a service light which reads "service engine soon." This light warns you that there is a problem with the vehicle's emissions control system. This system is very important as it regulates and controls the air to fuel ratio as well as a number of other vehicle functions. A free diagnostic scan can be done to diagnose the problem at most auto parts stores.

How to Reset the Service Engine Soon Light on My Nissan ...

The best way to determine why the check engine light in your Nissan came on is to stop by an authorized service center. However, if it's a steady, unblinking light, we do recommend checking the gas cap--especially if you've just filled up. A loose gas cap can cause the check engine light to turn on, as will a gas cap with a crack in it.
