Fluoride varnish is, as the name suggests, a liquid that contains a high concentration of fluoride. It may also come in the form of a gel. A thin layer is applied directly to the teeth, where it hardens and releases fluoride into the enamel.

Fluoride is a mineral that helps strengthen tooth enamel, thereby making teeth more resistant to decay.

Anchorage, Alaska's anti-vaxx, anti-mask Mayor Dave Bronson took it upon himself to shut down the fluoride treatment to the town's water supply, denied reports he had done so, then ultimately admitted to it after it was turned back on. Local laws require fluoridation. Bronson is a registered Republican although Anchorage mayoral races are nonpartisan.
