A lower nighttime temperature in the low 60s F to low 70s F is normal and healthy for your Panther Chameleon. But your chameleon will need to warm up in the morning to get a good start on the day. In the wild, chameleons look to the sun rise and bask until their body temperature is sufficient for optimal hunting, digestion, and general function.

$\$ \backslash \text{begin} \text{group} \$$  If your scale your numeric features to the same range as the binarized categorical features then cosine similarity tends to yield very similar results to the Hamming approach above. I don't have a robust way to validate that this works in all cases so when I have mixed cat and num data I always check the clustering on a sample with the simple cosine method I mentioned and the ...
