This guide will familiarize you with the basic mechanics of the new Flight Planning and Filing system on SkyVector. It is by no means a complete user guide, but should help you get started. As always, feel free to email info@skyvector.com with any comments or suggestions. 1800wxbrief.com Integration

Flight Planning and Filing Pilot's Guide | SkyVector

Check both "VFR" and "IFR" boxes in Block 1 of the flight plan form. If the first part of the flight is IFR, ATC will normally issue an IFR clearance to the point at which the VFR portion of the flight will begin. After reporting VFR over that point, ATC should be advised to cancel the IFR portion of the flight plan.

File a flight plan - AOPA

If VFR flight is conducted for the first portion of the flight, pilots should report their departure time to the FSS with whom the VFR/IFR flight plan was filed; and, subsequently, close the VFR portion and request ATC clearance from the FSS nearest the point at which change from VFR to IFR is proposed.

Preflight - Federal Aviation Administration

Visual Flight Rules (VFR) VFR flight may only be conducted (CAR 172, ENR 1.2): in VMC; provided that, when operating at or below 2000 ft above the ground or water, the pilot is able to navigate by visual reference to the ground or water
